## The LESELI Experience

'Leseli' is the Sesotho word for 'light, illumination, enlightenment'  
The LESELI Experience is a special project of the WEF (Wildlife Education Foundation), a registered NPO & PBO.

Our program and courses focus on the Human-Nature Connection and sharing extraordinary information and nature experiences to 'illuminate' our understanding and perception of our universe, our planet, our environment with its amazing biodiversity, and our own inseparable connection and inter-relationships with it all -

to INSPIRE, REDISCOVER and RECONNECT

*'We do not come into this world, we come out of it as leaves from a tree'*

## Our Programs & Courses

All our programs & courses focus holistic on the Human-Nature Connection and are presented or hosted at either YOUR venue/location or at a LESELI partner reserve or wilderness destination.

1. Special Event Talks & Presentations
2. One Day Student Program/Course
3. 3-Day Student / Volunteer Program & Course
4. 5-Day Student / Volunteer Program & Courses

## Why Human-Nature Connection

One of the main reasons why the human species feels disconnected, isolated, and lost in a seemingly hostile world, is to a large extent the result of us severing our connection with nature, hence, spirit, and all other living creatures, including ourselves. This connection serves as our internal guidance system and without it, we are lost in many ways.

## Our approach

The LESELI Experience follows a holistic approach in illuminating the Human-Nature Connection, focusing on FIVE main perspectives:

Cosmological (Scientific), Biological (Ecological), Antropological, Philosophical, and Spiritual prespectives.

# Student / Volunteer Program

The LESELI Student & Volunteer Programs and included Courses have been developed as independent nature programs and courses, but can just as easily be incorporated as an additional, inspirational and enriching add-on to any existing volunteer or student program.

KNOWLEDGE - RESPECT - COMPASSION - CARE - CONSERVE
